

Instructions

Note: Firefox is the recommended browser for this event, and is required for the use of VR. The only exceptions are the Oculus Quest and Oculus Quest 2, which can open hubs in their built-in browsers.

Presenting: Sharing Your Screen (PC Mode)

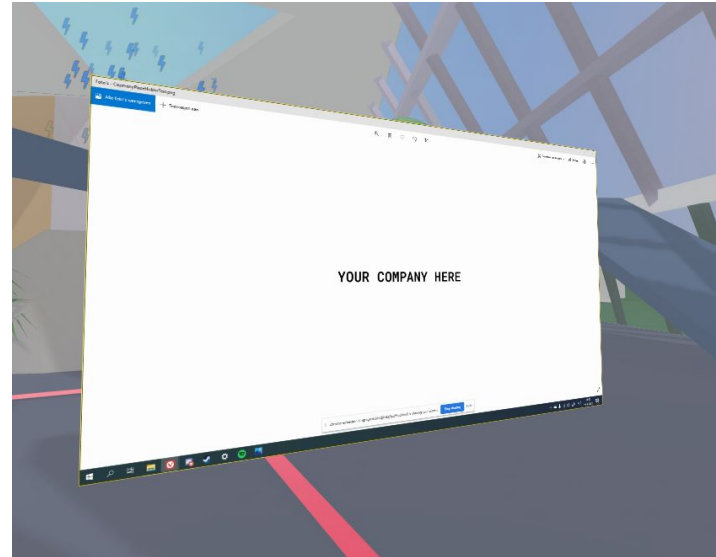

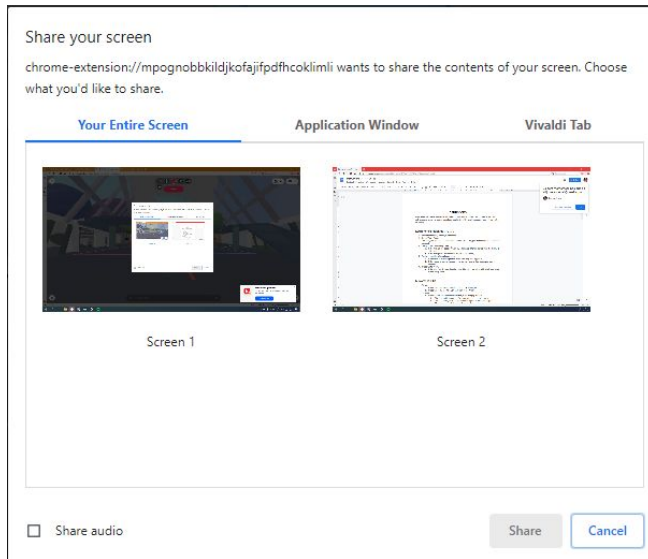

Quick Guide

1. Press Share Screen, it looks like this:

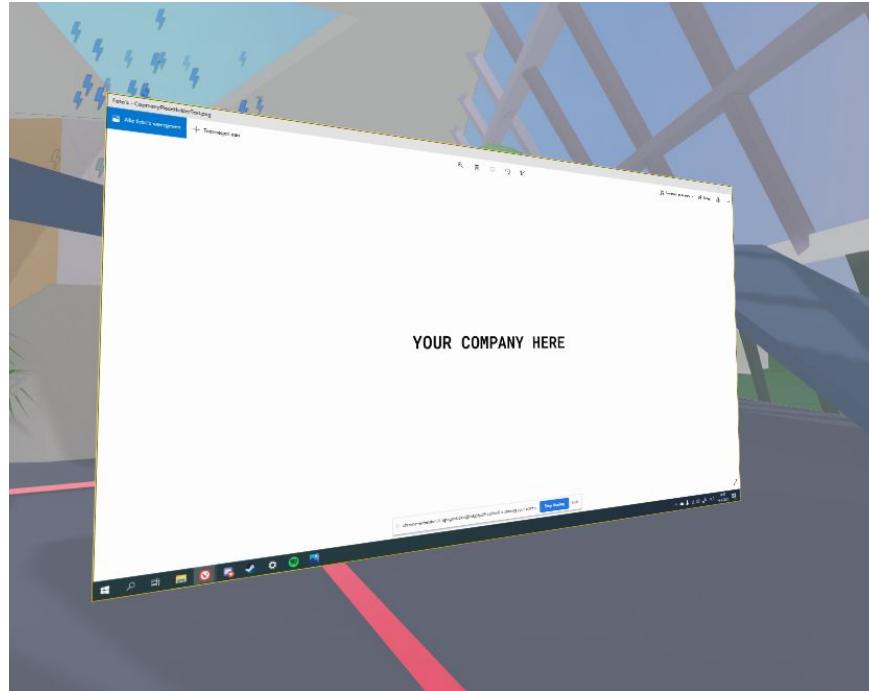

2. Follow the instructions on screen,

- You may be asked if you want to share an entire screen or a window, select whichever you prefer and feel safest with.
- It will create an object in Hubs that shows your screen

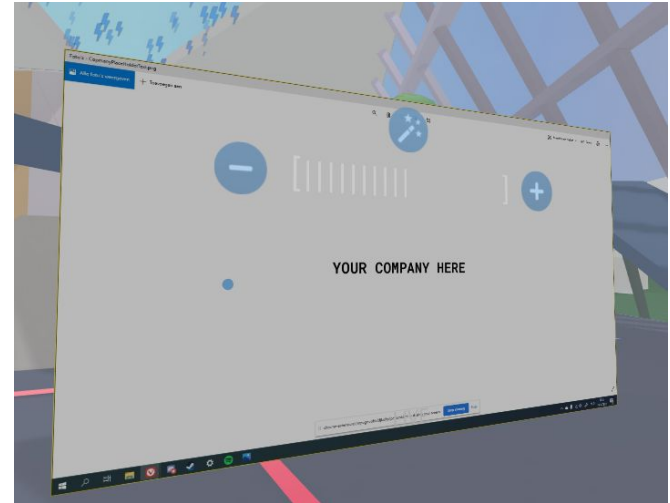

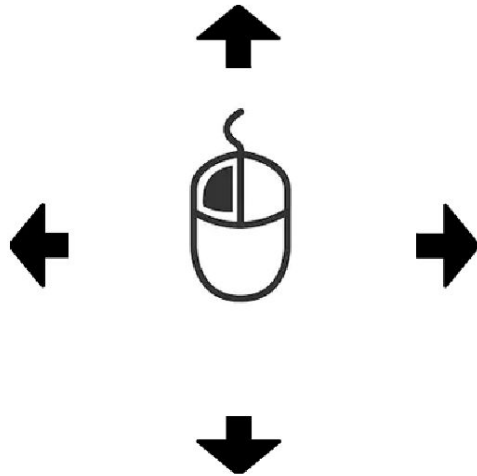

3. A moderator will assist with setting up your presentation once you have created the object

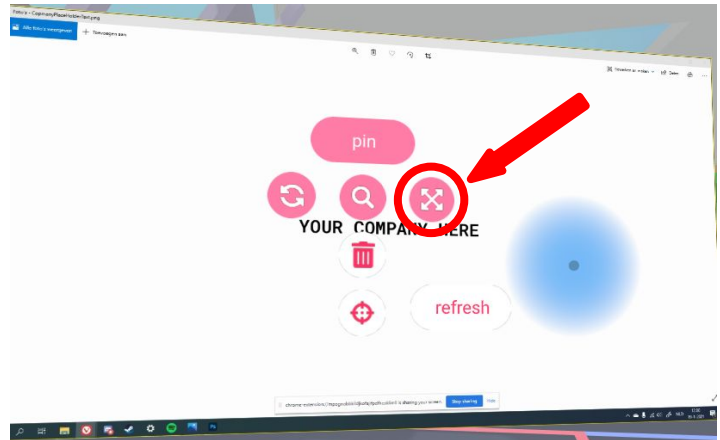

4. However, if one is not around you can grab the object pressing and holding with the left mouse button,

5. Move the object to your desired location

6. To increase the size of the object, hold the spacebar down, then click and hold on the rightmost button on the second row, and drag the mouse to resize.

- a. Experiment with the direction you need to move in order to become comfortable,
- b. You may need to resize the object multiple times to make it large enough for all to see,

7. Give your presentation!
